jworra.com Changelog

All notable changes and optimizations

MAY 30, 2026 — BUILD V2.1

PERFORMANCE & OUTPUT SIZE

- -74% Total output size reduced from 52.6 MB to 13.7 MB
- -57% hero-bg.mov: 14.1 MB → 6.0 MB (H.264 CRF 28 re-encode)
- -40% hero-bg.webm: 7.2 MB → 4.3 MB (VP8 re-encode)
- -92% tour_image.png: 1.5 MB → 117 KB (WebP)
- -97% dialogxe_bg.png: 1.1 MB → 36 KB (WebP)
- -44% emblem.png: 25 KB → 14 KB (WebP)
- -27% about.jpg: 511 KB → 374 KB (WebP)
- REMOVED 35.6 MB of unused font directories (GALGO, Nohemi, ROUND 8-FOUR, textgyreheros)
- REMOVED 9 unused image originals from public/ (replaced by WebP)
- -14 KB Removed transpilePackages: ['lenis'] (dropped legacy JS polyfills)

SEO & METADATA

- ADDED Canonical URLs across all 8 pages
- ADDED MusicGroup JSON-LD structured data (genre, founding location, streaming links)
- ADDED FAQPage JSON-LD with 5 Q&A pairs (who, genre, origin, streaming, labels)
- ADDED Hidden AEO context block for AI agents/crawlers
- FIXED Music page OG title: "Music" → "Music | J. Worra"
- FIXED Music page OG image (was missing, now uses /emblem.webp)
- FIXED Tour & Contact page meta descriptions enriched with keywords
- FIXED OG image dimensions corrected to actual sizes (256×256 for emblem)

- IMPROVED Heading hierarchy: Discography → <h2>, Available on → <h3>

DESIGN & CONTENT

- REDESIGNED Privacy Policy page — custom editorial design, plain-English content, matches site aesthetic
- REDESIGNED Terms of Service page — direct language, Terminal Grotesque headings, red accents
- REMOVED Empty <track src=""> element from hero video (no captions available)
- REMOVED Visible FAQ section from homepage (moved to hidden AEO block)

INFRASTRUCTURE & BUILD

- FIXED Spotify API now gracefully returns empty data on network failure instead of crashing build
- ADDED 5 retries with 2s delay on Spotify API calls
- FIXED Default Vercel favicon removed — now uses custom favicon from public/favicon/
- FIXED Spotify credentials updated (was returning 401)
- ADDED trailingSlash: true for DreamHost directory-based routing
- ADDED Cache-control headers in .htaccess (1 year for assets, 1 hour for HTML)

LEGAL & COMPLIANCE

- ADDED California Privacy Rights section to Privacy Policy — CCPA disclosures (right to know, delete, opt-out), Do Not Track policy

VIDEO & ANIMATION

- REWROTE Hero background video loop — replaced RAF seek hack with dual-video crossfade for seamless looping, eliminating visible stutter between loop iterations

INFRASTRUCTURE & BUILD

- FIXED Node.js DEP0205 deprecation warning from Next.js dependency — suppressed via node-options in .npmrc

ACCESSIBILITY

- ADDED fetchpriority="high" + loading="eager" to nav emblem (LCP optimization)
- FIXED Low-opacity text contrast across Dialogxe, Tour, About, and Music pages
- FIXED Non-composited CSS animations replaced (scrollbar-color removed from transitions)
- ADDED prefers-reduced-motion support on all pages
